CITE 6 Annual Goal: Academic Support Through Test-Taking Strategies

My 2024–2025 CITE 6 goal focused on improving student academic development by increasing iReady math scores for a group of students not receiving other academic interventions. Based on school-wide iReady data, 11 students were identified and provided targeted support through a small group focused on test-taking strategies and anxiety management. This group aimed to build confidence, reduce test-related stress, and equip students with practical skills to enhance performance and engagement in math assessments.
